Canadian Toner End of Life (EOL) Notification

Source Technologies is committed to providing the highest quality products and services to our customers. All technology products eventually reach the end of their useful life and a business decision must be made to discontinue the product. At Source Technologies, we view product EOL as a part of the life cycle that drives new technology and product innovation.

We recognize the impact EOL can have on our customers. Therefore, we are providing you with notification of EOL on the Canadian Toner listed below.

<u>EOL Canadian Toner:</u> Printer Model	Part Number	EOL Date
ST9120 and ST9125	STI-204520C-012A7839	9/27/2011 Immediately
ST9120 and ST9125	STI-204520DL-A-12A7839	9/27/2011 Immediately

The above referenced products have reached end of life and will be withdrawn from inventory immediately 9/27/2011.

Newer technology often provides more productivity and greater efficiency in the same or similar applications as previous product generations. If interested in replacing this solution, we recommend considering the ST9620 or ST9630 MICR printer which offer unparalleled speed and performance as well as supports MICR toner that meets current Canadian MICR standards. We do understand how integral this equipment is to your organization's overall productivity, and we look forward to having a conversation with you about the right technology for your needs today and into the future.

Please contact us at 1-800-922-8501 or via marketing@sourcetek.com to discuss your organization's secure MICR printing needs.
