Source Technologies®

Self-Service Kiosk Solutions

9 Series Personal Teller Machine (PTM)

Providing Supreme Flexibility to Develop an In-Branch Modern Banking Experience.

Source Technologies 9 Series PTM Kiosk

Our new 9 Series, core integrated, kiosk is the newest personal teller machine (PTM) in our self-service kiosk family. With combined features of both the 10 Series and 8 Series Kiosks, a small footprint and an UL rated day or 24-hour safe, the 9 Series allows institutions to develop a true in-branch modern banking experience. With the capability to perform 90% of teller transactions and at just over 3 square feet, this self-service PTM is a great choice for maximizing space and can be placed almost anywhere in your branch with no construction needed.

When paired with software from one of our endorsed partners, the 9 Series from Source Technologies communicates directly with your core, providing your clients the convenience of conducting their business from a self-service device.
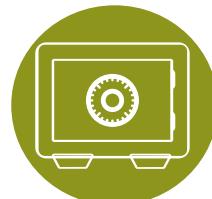

1 19.5" Capacitance Touch Screen

2 Camera
